

# IS YOUR MONEY GOING UP IN SMOKE?

## DON'T PAY THE PRICE OF INDOOR SMOKING.

Secondhand smoke covers walls and other exposed surfaces with a dirty yellow residue. The estimated cost to clean and refurbish a smoking unit can run \$4,000-\$15,000; while a non-smoking unit is usually less than \$1,000. As a manager or owner of an apartment complex, you can save thousands of dollars in maintenance costs by implementing a smoke-free policy. Other benefits of smoke-free policies include:

- Attraction and retention of tenants
- Decreased smoking-related complaints
- Possible insurance rate decrease
- Reduced cigarette butt litter
- Reduced fire danger
