SYMPTOMS of Allergic Reactions

A food allergy is an immune system response to a particular food. Symptoms may include:

SWELLING FACE

NAUSEA OR VOMITING

HIVES OR ECZEMA

TROUBLE BREATHING

DIZZINESS

SAFETY TIPS

Avoid cross contact with allergens

Follow recipes and menus exactly

Wash and sanitize all food contact surfaces before starting to prepare a new item

Do not use the same utensil or glove to serve foods with Big 8 allergens and other foods

Do not make substitutions without authorization

Support guest requests, and be sure you're right.

Refer questions or requests about food ingredients to your supervisor.
